# ABOUT OUR COMPANY

Boxtech is a private company established in Dubai to serve the need of customized IT solutions in the Middle East region. Since our inception, we have also started full-fledged operations in Pakistan, Saudia Arabia, Australia, and Azerbaijan. We realized that there was a growing need for customer-friendly suppliers in the IT Domain, who would provide solutions to the various problems faced by Customers. We believe in selling Hardware and Software as a Service or Solution rather than as a Product and hence ensure that the customers get the benefits that are initially promised to them. We want you to build your business through technology and we are here passionate to support your growth and innovation throughout different parts of the world

# VISION & MISSION

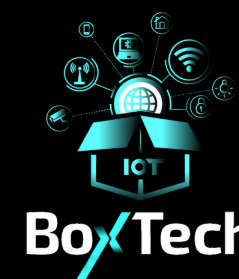

## VISION

Our vision is a barrier-free ecosystem connecting Manufacturers and Integrators to drive innovation and growth. We bridge the gap between Manufacturers and Integrators, empowering exceptional solutions that exceed client expectations.

## MISSION

We optimize Manufacturers' products and services to ensure they are the perfect fit for each unique solution. We aim to revolutionize the industry by transforming businesses' approach to technology integration.

# WHAT WE HAVE TO OFFER?

CONNECTED VEHICLES & ASSETS

INDUSTRIAL INTERNET OF THINGS / M2M

ENERGY & UTILITIES

TECHNICAL SERVICES

Your R&D Partner

[www.boxtech.ai](http://www.boxtech.ai)

BoxTech

# CAR SHARING SOLUTION

Working with the region's top service providers (UDRIVE & EKAR )

# COLD CHAIN SOLUTIONS

Temperature monitoring solutions for FMCG Storage, HealthCare product transportation.

Your R&D Partner  
[www.boxtech.ai](http://www.boxtech.ai)

# FUEL MONITORING

Prevent fuel theft via sudden fuel drop reports, via sms/email alerts.

# TRAILER/CARGO MONITORING

Track trailer is attached and the container through the smart lock and BLE sensor

**F**  
MONITORING

# VEHICLE MAINTENANCE

Vehicle diagnostics code, RPM, engine temp analysis vehicle health )

# INSURANCE TELEMATICS

System facilitates insurance company to offer premium based on driving quality.

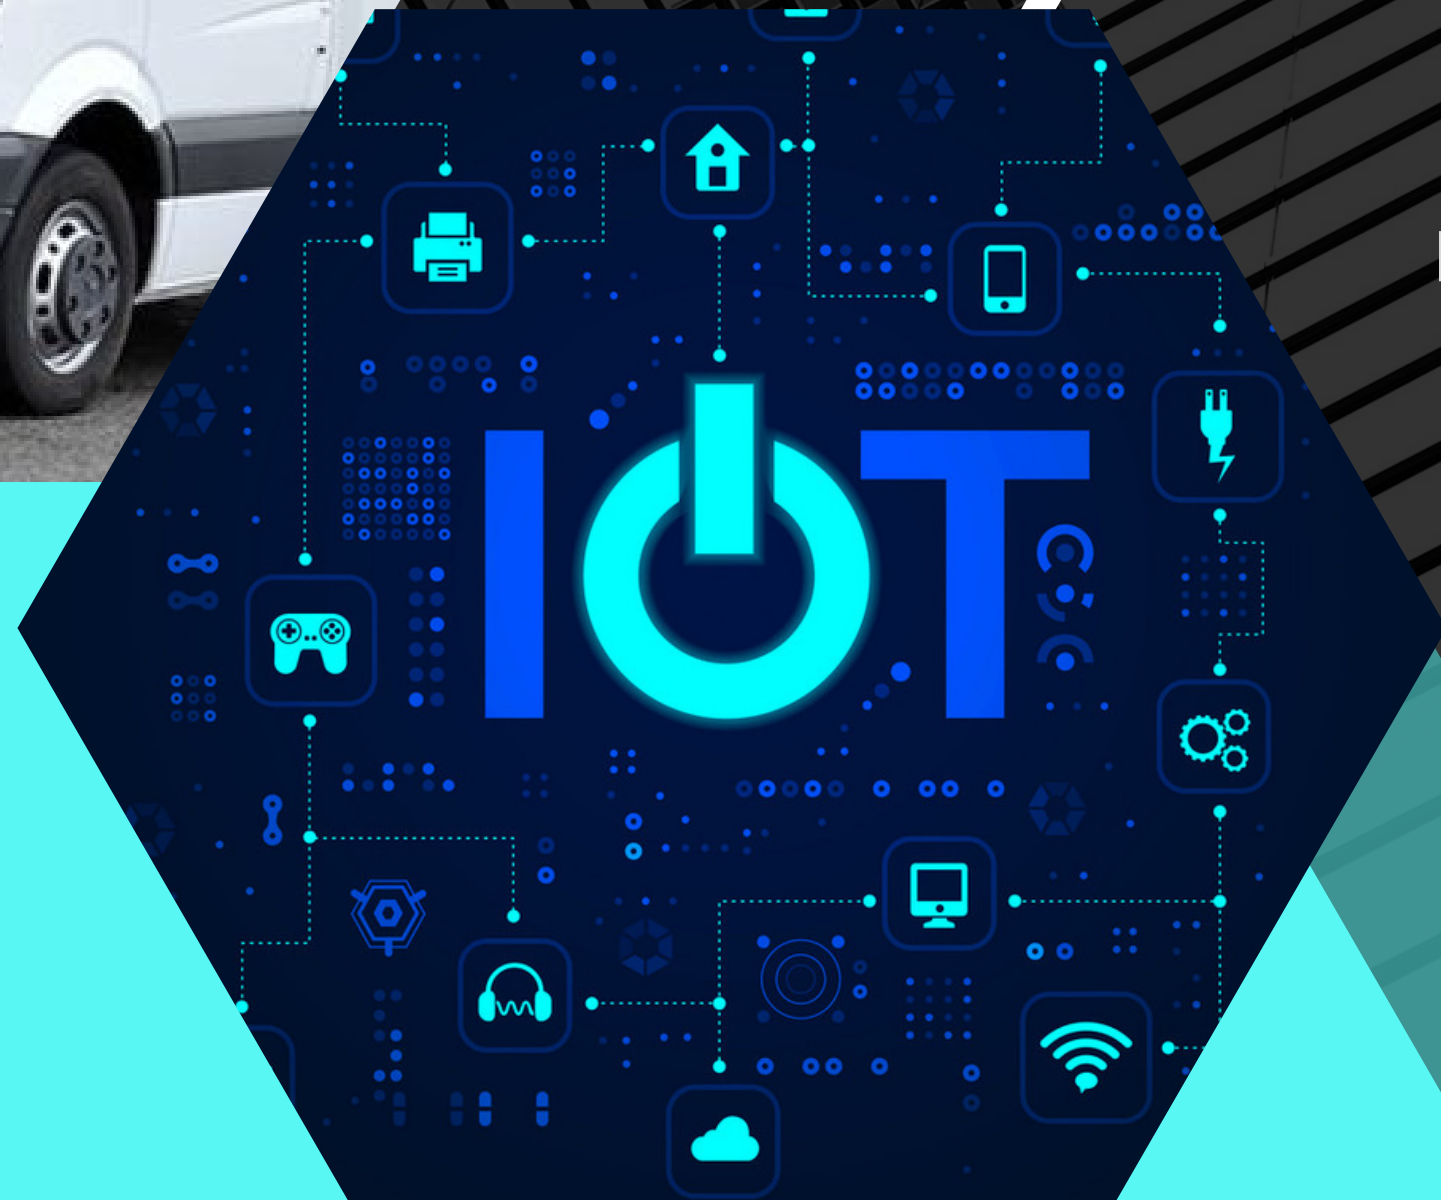

# CASH-IN-TRANSIT SOLUTIONS

Track vehicle, cash bags and notify for unauthorized vehicle stop.

# IOT SENSORS

Door lock, Temp & Humidity sensor, wireless driver ids and face id attendance systems.

# GENERATOR MONITORING

Remotely control and monitor fuel levels, HealthCare product transportation

# EQUIPMENT MONITORING

Track valuable equipment for leasing business, rescue team cash transit bags

Your R&D Partner  
[www.boxtech.ai](http://www.boxtech.ai)

# REMOTE ASSET MANAGEMENT

Remotely/schedule. ON/OFF Generators, CNC Machines through MODBUS Technology

# CUSTOMIZED PROJECT

Customized solution according to needs of operations, workflow, etc

Your R&D Partner
